SUMMARY

I studied psychology at the University of Santiago de Compostela and I did my PhD on the **"Quality of life of people affected by the Ardystil syndrome"** at the University of A Coruña (2010).

Before becoming a lecturer, I started to work in the private sector as a **consultant in human resources** and in the area of **worker's security and health** since 1985. After this experience in the private sector, I decided to join the University of A Coruña as a specialist in social psychology, giving lectures on this area and focusing on psychology of workers and organizations.

I do research on **Applied Social Psychology, prevention of labour risks, labour accidentability, job stress**, and other topics that connect worker's world with Psychology.

I have done **research stays** in several universities such as University of Perú, Hogeschool University of Applied Sciences in Utrecht, Catholic University of Portugal in Oporto.

I have **co-directed several research projects** such as "Analysis of the effects on psychological health on people affected by asbestos in Ferrolterra", "Professional diseases caused by psychosocial factors in the public sector" and "Changes in the psychosocial support and the social network on people affected by the use of asbestos in the area of Ferrolterra".

Concerning my publications, I am the author of the books **"Manual of prevention of psychosocial and labor risks"**, **"Reflection on security and psychosocial risks"** and **"Changes in the psychosocial support and the social network of people affected by asbestos in Ferrolterra"**.

Furthermore, I have also published several articles such as **"Adaptation and application on the Questionnaire of Han, Cella, Bode and Hanrahan in Spanish patients affected by asbestos poisoning"**, **"Judicial Decision- Making in Family Law Proceedings"**, **"The Occupational health of correctional officers in Perú: The impact of length of work experience"**, **"Analysis of the sociofamily and labour area in the people affected by the Syndrome of Ardystil"**, **"Changes in psychosocial quality of life due to an occupational disease: the affected by asbestosis in naval industry"**, **"The public system of pensions"**, **"Job stress and burnout: psychosocial factors affecting the health and safety at work"...**
